FIRST NEST

28 April

@ 9:53 pm

Nikki is a neophyte!

Nikki nested twice this year at Sandy Point. She liked nesting on the North Beach. She had lots of eggs (98 per nest)

Nina checks on a hatching nest.

Each nest on Sandy Point is carefully monitored when it gets close to hatching time. We are there in the early afternoon to monitor any nests that are emerging and to protect the hatchlings as they make their way to the water.
