the

HISTORY

of Agnes

nesting since 1999!

Turtle #1

Agnes is one of our original turtles on the project. She has nested over 40 times at Sandy Point, being seen last in 2013.

Size:

170.0 cm

3

Nests

Our biggest turtle of 2018!

Nest Locations

Agnes nested three times on the North Beach, and was seen one more time there, but did not nest. The average time we found her was just before midnight! Her last nest was on 18 June.

Average # Eggs

63

per nest!

Adopted by Debbie and Dave, for Molly

Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. SeaTurtleCensus.com
