

# Jillene

2018

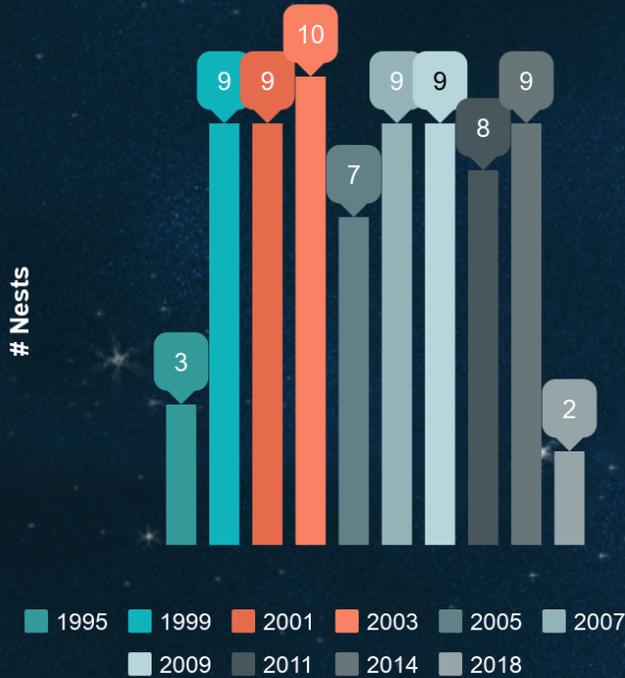

TAG: AAR575

FIRST NEST

31 March

@21:48

## Nests per Year

## the HISTORY of Jillene

Turtle #2

nesting since 1995!

Jillene is one of our original turtles on the project. She has nested 75 times at Sandy Point!

Size:

166.0 cm

75 Nests

One of our biggest turtles of 2018!

## About Jillene

Jillene nested both times on the North Beach. She is still carrying the original tag she was given in 1995, which is very unusual. Her second nest was on 16 April. She likely nested on nearby beaches after that, as we only saw her twice. Both Jillene's nests hatched well; one nest produced 48 hatchlings!

Average # Eggs

112

per nest!

Adopted by Peter and Jillene White

Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. [SeaTurtleCensus.com](http://SeaTurtleCensus.com)
