## Nests per Year

the  
**HISTORY**  
of Amy-Lee

Turtle #4

nesting since 2012!

Amy-Lee first nested at Sandy Point in 2012. She was bitten by a shark but healed well!

Size:  
144.0 cm

4 Nests

One of our smallest turtles of 2018!

## About Amy-Lee

Amy-Lee was faithful to nesting areas on the North Beach, with all her four nests being laid very close together. We usually found her around midnight. All of Amy-Lee's nests hatched about 60 days after they were laid. She is named after a long-time volunteer on the leatherback project!

Average # Eggs

79  
per nest!

Adopted by Mike McKay for Amy Semple

Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. [SeaTurtleCensus.com](http://SeaTurtleCensus.com)
