HISTORY

of Rose

Turtle #6

At Sandy Point since 2007!

Rose first nested at Sandy Point in 2007. She was last seen in 2009 so we were happy to see her this year!

Size:

163.9 cm

About Rose

Rose is one of our biggest turtles, and was very productive. She really liked the North end of our survey area and usually showed up after midnight and frequently around 3 am! Her nests all hatched well and her hatchlings are now swimming in the Caribbean Sea!

Average # Eggs

64

per nest!

Adopted by Dave & Debbie for Rose

Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. SeaTurtleCensus.com
