Nests per Year

the HISTORY of Jumbie

Turtle #7

at Sandy Point since 2004!

Jumbie is a good consistent nester at Sandy Point! She has some shark bite scars but she persists!

Size:

161.0 cm

5 Nests

A bigger than average turtle!

About Jumbie

Jumbie liked nesting on the North Beach and could be reliably found there about every 10 days. All of her nests hatched and lots of hatchlings were released. Jumbie liked to nest well after midnight and kept us on our toes!

Average # Eggs

68

per nest!

Adopted by Molly Murray

Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. SeaTurtleCensus.com
