

Barbara Ann

FIRST SPOTTED

2019

16 April

TAG: SPP831

@2:15 am

When a new turtle like Barbara Ann shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify them easily each time they come back to nest and we can track their nesting history over many years.

the HISTORY of BA

Turtle #12

new at Sandy Point in 2019!

Barbara Ann was a brand new turtle this year at Sandy Point. She was Turtle #12 of 24 for the 2019 season!

Size: 152.0 cm

0 Nests

### About Barbara Ann

Barbara Ann tried to make a nest three times on the North Beach and she finally gave up after digging 3 egg chambers. The sand was very soft and it would not hold the shape; it kept collapsing. We hope Barbara Ann will be back in two years.

Average # Eggs 0! in her clutches!

Adopted by Gregg Tepe for Tracy Cole! Thank you!

The St. Croix Leatherback Project is partially supported by the Sea Turtle Census, a project of The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS. SeaTurtleCensus.com
