

Arline

FIRST SPOTTED

2021

TAG: K K X 1 5 0

17 August

Hawksbill sea turtle

@9:02 pm

When a new turtle like Arline shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

the HISTORY

Turtle #19

of Arline

at Sandy Point since 2021!

Arline was a new nesting hawksbill turtle this year!

Size:

74.6 cm

1 Nest

About Arline

We saw Arline only once this season at Sandy Point. When we first encountered this pretty turtle on 17 August on the West Beach she was digging in open beach, but abandoned that attempt and ended up nesting under a sea grape. It was a great nest. We hope to see Arline back in a few years!

Average # Eggs

124

Adopted for Vanessa Peifer by her family for her birthday and Vanessa named her!

Thank you!

The St. Croix Sea Turtle Project is sponsored by The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS at Sandy Point National Wildlife Refuge. STXTurtles.com
