5 August

Hawksbill sea turtle

@11:30 pm

When a new turtle like Blue shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

the HISTORY

Turtle #2

of Blue

at Sandy Point since 2021!

Blue was a new nesting hawksbill turtle this year!

Size:

86.5 cm

About Blue

We actually saw Blue nest at Sandcastle on the Beach! She was found nesting on 5 of August late in the evening. Blue is a quick and efficient nester! Her shell is pretty and quite clean. We hope to see Blue back in a few years!

Average # Eggs
