

# Bronze

FIRST SPOTTED

2021

TAG: BBQ996

Green sea turtle

11 August

@11:15 pm

When a new turtle like Bronze shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

## the HISTORY

Turtle #7

of Bronze  
at Sandy Point since 2021!

Bronze was a new nesting green turtle this year!

Size:

105.5 cm

## About Bronze

While we saw Bronze twice this summer at Sandy Point, she only nested at the North Beach on 11 August. The second time we saw her on 23 August she had started to get comfortable in the sand but then decided she did not like that spot. We hope to see Bronze return back in a few years!

Average # Eggs

107

Adopted by Scott Hughes for Janell Hughes!

Thank you!
