

# Genevieve

FIRST SPOTTED

2021

TAG: K K X 1 1 7

Green sea turtle

18 August

@11:14 pm

When a new turtle like Genevieve shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

## the HISTORY

Turtle #22

of Genevieve  
at Sandy Point since 2021!

Genevieve was a new nesting green turtle this year!

Size:

103.0 cm

## About Genevieve

While we saw Genevieve twice this summer at Sandy Point, she only nested with us once! Her nest was laid on 18 August on the North Beach and she made some cute noises during laying! She came up to the beach again on 11 October but left without nesting. We hope to see Genevieve return back to nest with us in a few years!

Average # Eggs

107

Adopted and named by Kelly Stewart for her aunt, Genevieve!

Thank you!

The St. Croix Sea Turtle Project is sponsored by The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS at Sandy Point National Wildlife Refuge. STXTurtles.com
