

Kolika

FIRST SPOTTED

2021

TAG: SP019

Green sea turtle

17 September

@11:18 pm

When a new turtle like Kolika shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

the HISTORY

Turtle #54

of Kolika

at Sandy Point since 2021!

Kolika was a new nesting green turtle this year!

Size:

102.3 cm

About Kolika

We saw Kolika just once this season at Sandy Point! She nested at the West Beach on 17 September. She laid a beautiful nest in a bay lavender bush. She also had a nice and clean looking shell, no barnacles for Kolika. We hope to see Kolika back to Sandy Point in a few years!

Average # Eggs

107

Adopted and named by Danielle Young and Patrick Kocovsky!

Thank you!

The St. Croix Sea Turtle Project is sponsored by The Ocean Foundation, a 501(c)(3) organization, in cooperation with the USFWS at Sandy Point National Wildlife Refuge. STXTurtles.com
