Green sea turtle

FIRST NEST

30 March

@12:55 AM

When a new turtle like Allison shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

About Allison

Being a neophyte, a new nesting turtle, this is the beginning of Allison's story. She may have left here as a hatchling 20 years ago and is now starting her adult life. We hope to see her again in a couple of years.

Our team thanks you for your support!

Adopted by Nancy and Herb Rose, for their granddaughter Allison, in memory of Olaf Saugen.

Thank you!
