TAG: KXX134
Green sea turtle

FIRST NEST

10 August

@10:03 PM

When a new turtle like Harpo shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

About Harpo

Being a neophyte, a new nesting turtle, this is the beginning of Harpo's story. She may have left Sandy Point as a hatchling 20 years ago and is now starting her adult life. We hope to see her again in a couple of years.

Our team thanks you for your support!

*Adopted and named by Susan Del
Guidice for her son, Mark.
