

Henrietta

2022

TAG: SP018
Leatherback sea turtle

FIRST NEST

26 April

@9:05 PM

When a new turtle like Henrietta shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

THE HISTORY OF *Henrietta*

About Henrietta

Being a neophyte, a new nesting turtle, this is the beginning of Henrietta's story at Sandy Point. After nesting with us, Henrietta nested in Puerto Rico! We can't wait to see her again in a few years!

Our team thanks you for your support!

*Adopted by Sharon Faulkner for
young friend Henry!
Thank you!*
