When a new turtle like Peaches shows up for the first time, she will get a metal flipper tag and an internal tag (microchip). This way we can identify her easily each time she comes back to nest and we can track her nesting history over many years.

About Peaches

Being a neophyte, a new nesting turtle, this is the beginning of Peaches' story at Sandy Point. She was first tagged in Vieques. We hope to see her in a couple of years!
